PILL BUDDY NATURALS

Pill Buddy Naturals makes pill time a rewarding and easy experience for you and your pet. Pill Buddy Naturals will accommodate almost any size pill or capsule intended for dogs - simply 'push, squeeze and feed'. Pill Buddy Naturals is 'marinated' in an exclusive blend of natural ingredients called Nature's Sauce™. Nature's Sauce™ provides excellent mouth-feel, impact and texture; providing a unique surface for the treat to be swallowed whole. This prevents the dog from biting into bitter tasting medicine and spitting it out. Pill Buddy Naturals are conveniently wrapped in pairs to preserve freshness and functionality and prevent drying and cracking. After the dog finishes its medication, Pill Buddy Naturals can continue to be fed as a delicious soft and chewy treat for all occasions.

***Like natural peanut butter, oil separation can occur with Pill Buddy Naturals. This is normal and is not a defect. We choose not to use artificial chemicals. As a result, the healthy blend of oils and fats in Nature's Sauce is super yummy and creates a great feeling in the dog's mouth that they love.
