

# FELINE FRESH CAT LITTER

By PlanetWise Products

## Feline Fresh Scoopable/Clumping Litter

Scoopable Feline Fresh™ will absorb the moisture, neutralize the odor and form a firm clump that can easily be scooped out. The product is lightweight, has a higher yield than traditional clumping cat litter and the biodegradable clumps can be safely flushed down the toilet. Like the original Feline Fresh™ pine pellet cat litter, this naturally inhibits bacteria growth and leaves the litter box clean, with a fresh scent. Feline Fresh™ is free of silica dust, non-toxic and completely safe for all pets and people, even if ingested.

## Feline Fresh Natural Pine Cat Litter Pelleted

Feline Fresh is made from a natural by-product of the lumber industry, southern pine and pelletizes the product for maximum performance. Feline Fresh absorbs 4 times more of the odor causing liquid. The pellets are flushable, scoopable and biodegradable. The processed pellets are completely clean, sterile, dust free and healthy. Made from 100% all natural pure pine pellets without chemicals or additives. This product does not track or stick to cats fur or feet.
