

GET SERIOUS!

Stain, Odor and Pheromone Extractor

May be purchased by the each.

GET SERIOUS! Is an award-winning product with a super-effective formula that works in three minutes and won't yellow like some enzyme-based cleaners. Dog Fancy editors rated **GET SERIOUS!** "Best Product of the Year 2004" based on the product being the most innovative and easy for pet owners to use. **GET SERIOUS!** was also awarded "Best Product for the New Millennium" from Dog World magazine in January 2000. And, Get Serious was the second product ever endorsed by the ASPCA when they first started their "Seal of Approval" endorsement program.

GET SERIOUS! contains a revolutionary formula that "bubbles up" stains and odors and brings them to the surface where they can be easily blotted away with a towel. It can be heated in the microwave to remove tough, ground-in stains. The product also removes old stains and discoloration left by other cleaners. More than a neutralizer, **GET SERIOUS!** actually removes the pheromone in the odors so pets won't re-mark area. **GET SERIOUS!** is non-toxic, biodegradable, non-flammable, and safe to use around children and pets. May also be added to laundry loads or used as a pre-wash agent for tough stains and odors.

NEW – Get Serious for Cat's

Get Serious! extracts the problem! It doesn't just neutralize it and leave it in the carpet like enzymatics. It penetrates through the padding all the way to the flooring & bubbles up the problem to the top of the carpet where it is completely wiped away. Dry terry cloth towel works like a magnet with this revolutionary solution, pulling the amazing bubbles up from under padding. These magic bubbles attach to the stain or odor source and then carry it up to the surface where it can be completely absorbed into the towel and totally extracted! Therefore, no odor and no yellowing can occur! Pets won't re-mark either because they can't find their spot! Safe, non-toxic, biodegradable, and non-flammable. For old or difficult stains, warm **Get Serious!** Cat in the microwave before applying. Completely extracts cat stains, odors and pheromones to naturally stop the carpet damaging re-soiling cycle.
