

Distributors of the Finest Natural Pet Products™

It's no secret . . . Good health starts from within! Missing Link products are formulated from whole foods and food concentrates to deliver nutrients that are bio-active, the way Mother Nature made them. Our proprietary, patented cold-processing method ensures the freshest delivery of precious omega 3 fatty acids in combination with a broad spectrum of natural fiber, flax lignans and phyto (plant) nutrients. We use ingredients that are nutrient rich to address the problems of marginal or empty calories and "missing" nutrients that often are characteristic of companion animal diets. These nutrients synergistically provide support to the digestive, nervous, and immune systems. The result is sustained energy, healthy skin and coat, and much more.

This product is a dry granular powder, nitrogen flushed and vacuum-packed for freshness to protect its precious nutrients. It is a formulation for building and maintaining robust health in your canine friend. We urge you to use it for puppies after weaning and dogs throughout their mature years.

Missing Link Canine Formula

Formulated with natural, quality whole foods and food concentrates, **The Missing Link® Canine Formula** reintroduces unprocessed, nutrient-rich foods into your animal's diet.

Missing Link Puppy Formula

Puppies have special nutritional needs that commercial foods don't always provide. **The Missing Link® Puppy Health Formula** is a scientifically advanced superfood supplement made with wholesome ingredients specially formulated to meet the needs of a puppy's growing body. It is a synergistic blend of protein, omega fatty acids, calcium and phosphorus, and other vital nutrients to help maintain a healthy immune system and promote:

Missing Link Well Blend Plus for SENIOR DOGS

Older dogs that are sensitive to meat proteins need balanced nutrition, too! And, many of them need the added benefit of extra joint support. Adding The Missing Link Well Blend PLUS all-vegetarian formula to their food ensures your companion receives vital nutrients such as the omega 3 and 6 fatty acids, dietary fiber, phyto (plant) nutrients, AND vegetarian glucosamine for added joint support. Mature dogs love the taste of The Missing Link Well Blend PLUS Formula.

Missing Link Feline Formula

Let's face it . . . cats are finicky, especially when it comes to what they eat. This, however, does not mean that they don't need a fresh "boost" to their common diet of processed foods only. **The Missing Link® Feline Formula** was developed to deliver just such a feline dietary "boost" that jumps the nutritional gap that is a part of today's commercial feline "fare"! Cats have special nutritional needs that commercial foods don't always provide. The Missing Link Feline Formula was created specifically to target those needs with the vital nutrients cats need to stay healthy, like the perfect ratio of omega 3 and 6 fatty acids, dietary fiber, phyto (plant) nutrients and naturally-occurring antioxidants.
