

CANNED DOG & CAT FOOD

Distributors of the Finest Natural Pet Products™

Since 1979, PetGuard has practiced the philosophy, which embodies the commitment to you and your pets, to provide only natural alternatives for a healthier environment and lifestyle.

People today are concerned with the important relationship between nutrition and health. We are all concerned about actual ingredient sources, seeking products free of artificial ingredients, by-products, colors, preservatives, excess sugars and salt. At PetGuard, our concern for minimizing toxic chemicals in our environment and sensitivity for improving our lifestyles extends to our pets as well.

Veterinarians agree that well fed pets contract fewer diseases, look healthier and are more active than pets that do not receive a healthful, well balanced diet. All pets deserve the benefits from a lifestyle of optimum nutrition, exercise, good grooming habits and regular veterinary visits. Our natural pet care products offer the discriminating and conscientiously concerned pet parents the opportunity to provide pets with the same health benefits that we all seek for ourselves.

CANNED DOG FOOD

Mr. Pugsly's Peanut Butter Dog Biscuits

We chose organically grown quinoa flour as our base ingredient. Quinoa (pronounced keen-wa) is a complete protein with an essential amino acid profile similar to milk and has the highest protein content of any grain. Additionally, quinoa is considered to be a hypoallergenic grain. We then combined the quinoa with oatmeal, brown rice, sunflower oil and the most natural delicious peanut butter made from fresh peanuts - and voila!...Mr. Pugsly's Peanut Butter Biscuits. Mr. Pugsly's are **FREE OF CORN, WHEAT, SOY AND YEAST!**

INGREDIENTS: Organic Ground Quinoa, Oatmeal, Sunflower Oil (preserved with mixed Tocopherols), Peanut Butter, Brown Rice, Calcium Ascorbate (Vitamin C), Monosodium Phosphate, Potassium Chloride, Taurine, DL-Methionine, Vitamin A Acetate, D-Alpha Tocopherol (Source of Vitamin E Supplement), D-Activated Plant Sterol (Source of Vitamin D2), Thiamine Mononitrate (Vitamin B1), Choline Chloride, Inositol, Niacin, Calcium Pantothenate, Biotin, Pyridoxine Hydrochloride (Vitamin B6), Zinc Amino Acid Chelate, Calcium Amino Acid Chelate, Iron Amino Acid Chelate, Folic Acid, Manganese Amino Acid Chelate, Copper Amino Acid Chelate, Cobalt Amino Acid Chelate, Sodium Selenite.

SUPPLEMENTS

PetGuard Joint & Hip Care for Dogs

PetGuard Joint and Hip is a unique formulation of nutritional factors important for joint health and support. Because dogs may not naturally manufacture optimal amounts of Vitamin C, many veterinarians recommend supplementation of this important nutrient to maintain and support healthy connective tissue and joint structure. Non Acidic Ester C Calcium Ascorbate is a natural form of Vitamin C that allows tissues to absorb and retain high levels of the vitamin. Glucosamine and Chondroitin, widely used for treating arthritis, helps the body reduce the destructive enzymes within the joint while providing the basis for strengthening cartilage.

GROOMING

PetGuard Shampoo & Conditioner

Hair and skin are constantly accumulating oil from glands in the skin, debris, dirt, toxins from the outside and inside environment, and the old sloughed off skin cells (surface skin cells which are constantly being replaced). These accumulations require loving pet owners to maintain a regular schedule for grooming and enhancing the good health of their pet and their pet's skin and coat. PetGuard Shampoo and Conditioner is a non-irritating shampoo that will condition as it gently cleans embedded dust, debris and excess oil leaving the coat soft, shiny, and easy to comb. There are no harsh detergents, alcohol, artificial colors, fragrances, or other dangerous additives that can cause skin irritation. PetGuard Shampoo is made with a gentle coconut oil cleansing base containing the herbs Aloe Vera, Pennyroyal, the B-Vitamin Panthenol and Keratin Protein derived from plant sources. Tearless, mild and non-irritating, PetGuard Shampoo and Conditioner conditions as it cleans, prevents mats and tangles and leaves your pet soft, shiny, deodorized and happy.

GROOMING

PetGuard Skin & Coat Liquid Supplement

The appearance of your pet's skin and hair coat is an excellent indicator of the overall health and well-being of your pet. Your pet's ability to grow a healthy hair coat depends greatly on inherited factors, good nutrition, and the absence of disease and parasitic conditions. Pets, like people, suffer from the effects of indoor and outdoor pollutants. Additionally, pets have two major shedding periods. Your pet's skin and hair coat is affected by cold winter air, making the skin and coat dry and flaky. In summer, some pets suffer from itchy, dry skin caused by the heat. PetGuard Skin and Coat Supplement supplies essential fatty acids for your pet's skin. Skin and Coat Supplement works from the inside to ensure that specific nutrients will help control shedding, scratching and flaking skin. Skin and Coat Supplement is a rich source of natural Vitamin E as well as Linoleic Acid, an essential fatty acid commonly known as the skin and coat vitamin. Our supplement is made with 100% unrefined wheat germ oil, cold pressed to retain valuable trace nutrients often lost in products that have been heat processed. Served directly or mixed into your pet's food, Skin and Coat Supplement provides the most natural way for your pet to receive the benefits these nutrients can provide. As with all PetGuard products, there are no artificial flavors, colors, preservatives, sugar or salt.
