

All Natural Canned Cat Food

No meat by-products of any kind are used in any Petite Cuisine flavor.

Only white meat chicken and real fish filets, or shrimp or rock crab are used to make Petite Cuisine's assortment of great flavors. No organ meats. No denatured (added charcoal) meat byproducts are ever used. It's another reason our product does not have a bad smell like other wet cat foods. The shelf life of our products is typically 3 years.

NO WHEAT GLUTEN

There is no wheat gluten added to Petite Cuisine's great flavors. Unlike other canned cat foods that pretend to be gourmet we are gourmet. You will not find wheat gluten in any of our products. This ingredient is commonly used to make commercially prepared pet food look and act like meat. We don't try to fool you with any ingredients.

Nutritionally Complete

All of our products are certified to meet the nutritional guidelines set by the American Association of Feed Control Officers (AAFCO). Testing using AAFCO procedures substantiate that all Petite Cuisine flavors provide complete and balanced nutrition for growth and maintenance of cats. Daily ration for an adult cat is 1-2 cans per 2.5 lbs of body weight. Feed up to twice that amount for kittens.

Petite Cuisine Yellow Fin Tuna

Ingredients: Fish Broth, Tuna Filets, Yellow Fin whole loin Tuna, Sunflower Oil, Tricalcium phosphate, Guar gum, Calcium Sulfate, Carrageenan, Vitamin E, Vitamin A, Vitamin D3, Zinc Sulfate, Thiamine Mononitrate, Manganese Sulfate, Menadione sodium bisulfate complex (source of vitamin K activity), Riboflavin, Folic Acid, Pyridoxine Hydrochloride, Copper Amino Acid Complex, Iron Amino Acid Complex.
