

Tasman's Natural Pet Bison Rawhide Chews

At Tasman's Natural Pet Brands we have developed all natural rawhide treats for your dog.  Bison are truly 100% natural

animals raised entirely without antibiotics or growth hormones. While they are ranch raised, mainly on family ranches, they live the way they did for thousands of years on pesticide free prairies of the north and west.

Tasman's takes possession of the raw Bison hides immediately after harvesting at USDA or State Inspected facilities in the United States, and maintain custody of the hides at all times. They are shipped to Mexico for processing at the Tasman's plant (that also makes furniture and dog collars) then they are shipped back to the United States for packaging by a shelter workshop group in Louisville, KY.

Unlike most rawhide chew companies that rely on the second layer of the skin, Tasman's uses the entire Bison hide including the top (full grain) layer in their Bison chews. Tasman's Rawhide Chew is the best Bison rawhide chew available today.
